

*Enterprise Express VoiceSystem*

*Revolutionary voice processing system*

# VOICE

## enable your network...

AND PUT THE POWER OF VOICE TO WORK FOR YOU

### Benefits

#### FLEXIBLE NETWORK ACCESS -

Anyone can be a client on the system - anywhere.

#### OPTIMAL INFORMATION AVAILABILITY -

Readily access dictation, data and text.

#### FULLY SCALABLE ARCHITECTURE -

Seamlessly add clients/servers when and where needed.

#### FLEXIBLE VOICE INPUT OPTIONS AND INNOVATIVE TRANSCRIPTION SOLUTIONS:

- ▶ **WALKABOUT™** digital portable recorders let you dictate "on the go", then upload voice files for network routing and transcription.
- ▶ **BOOMERANG™** software lets you directly dictate or transcribe from any client.

#### OPTIMIZED WORK FLOW -

Centralize administration and have decentralized work groups...or just as easily mix-and-match.

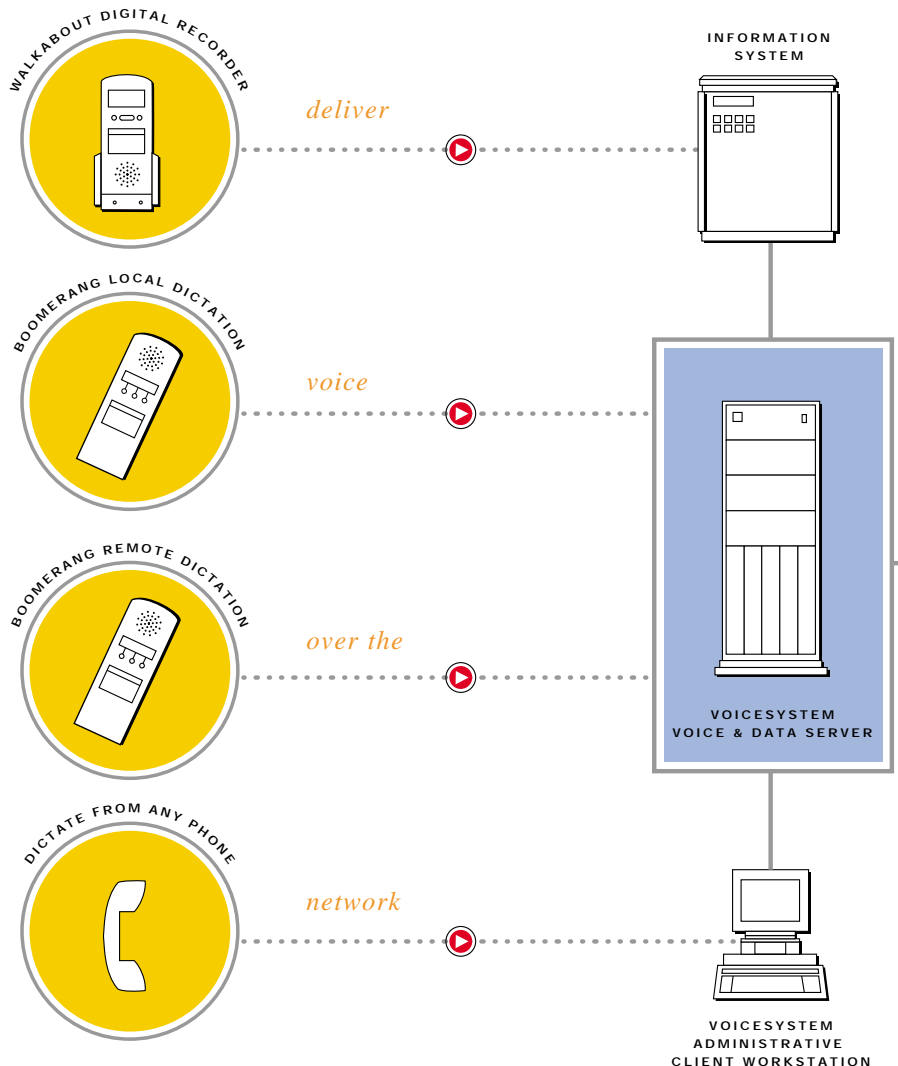

#### OPEN PLATFORMS -

Plan for the future with platforms that are open and ready for the shift to the "electronic record".

PROVEN RELIABILITY, PERFORMANCE, FRIENDLINESS AND SECURITY!

## Enterprise Express VoiceSystem

Enterprise Express incorporates Dictaphone's time-tested features and many powerful new ones. Innovative features include: tailoring profiles to individual work patterns, orchestrating work distribution, providing information on demand and familiar user interfaces. Some of the many benefits are:

### Powerful, Friendly Supervisory Control –

Using a familiar and easy-to-use Windows® interface, manage all system set-up parameters, user profiles and privileges.

### Dictator Friendly Interface –

Customize prompts and create “structured dictation”.

### Optimized Workflow –

Job transfer scripts and pools provide efficient work distribution. New “Target Turn-Around” functionality means efficient work management.

### Flexible and Scalable Configuration –

Features such as unlimited networked ports, network access, client stations and voice storage allow for a flexible and scalable environment.

## VoiceSystem Client Suite

The Enterprise Express VoiceSystem takes users to a new level of sophistication with a software suite of unequalled performance, versatility and effectiveness, utilizing the following voice processing applications:

*Explorer:* A robust application that lets you manage all set-up parameters, user profile security privileges, pools for efficient workflow and many other functions.

*Client Viewer:* At a glance, verify who is logged on the system, what they are doing and for how long.

*Job Lister:* Quickly look up information, run inquiries, direct and control job status.

*Dashboard:* Real-time central system status monitoring.

*Prompt Generator:* Create custom prompt libraries and “structured” dictation.

*Reporting module:* Access the SQL® Server database as needed for detailed information rich reports.

*Archiving Module:* Long-term voice and data storage.

# Enterprise- Wide Dictation and Transcription Systems

THE MOST POWERFUL, PRODUCTIVE AND FLEXIBLE...EVER !

Dictaphone's revolutionary new Enterprise Express ®VoiceSystem improves workflow and increases productivity with a high-powered, "user- friendly" integrated solution. The Enterprise Express family can be easily expanded by simply adding elements to the network.

The Enterprise Express Voice System takes a new approach to dictation, transcription and information management. Built on the proven "industrial strength" Microsoft® Windows NT® operating system, Microsoft® SQL Server™ relational database software, Windows® and MS Word® software, they represent unique dictation, voice management and transcription solutions.

Take full advantage of today's new breed of technologies—

- OPEN ARCHITECTURE
- LAN/WAN/INTERNET CONNECTIVITY
- CLIENT/SERVER ENVIRONMENT

Dictaphone's flexible new alternatives for capturing voice and data will change your business dramatically. Whatever the needs of your organization, Dictaphone makes it – and you – more productive.

## Total Customer Satisfaction

- ▶ At Dictaphone, we realize that providing technology solutions is only part of the equation and products are only as good as the people that support them. With this in mind, Enterprise Express is backed by the most comprehensive service and training support in the industry.
- ▶ A thorough evaluation of your organization is conducted by Dictaphone BEFORE any product recommendation is made.
- ▶ Your system is installed by experienced Dictaphone trained technicians, knowledgeable with your particular application.
- ▶ Experienced Dictaphone Application Training Specialists (ATS) design and implement training plans to ensure a successful system rollout and product utilization. The Dictaphone Remote Diagnostic Service Center is configured to monitor and maintain peak system performance... 24 x 7.
